

ARRESTS IN MEXICO CITY

POLICE SEIZE PARTY WHO HIRE SPECIAL TRAIN.

Government Cause Strengthened by the Arrest of Gen. Reyes. Story That Madero Was Wounded in Fight Between Rebels Vanishing. Order Restored.

CITY OF MEXICO, Nov. 25.—Several men were arrested this afternoon by Government detectives while trying to board a special train for Vera Cruz. They had arranged with the Mexican Central Railroad that the train should be on a side track waiting for them at 5 o'clock.

Their actions excited suspicion and when they went to board the train they found policemen waiting for them.

The police refused to divulge the names of the prisoners, but they are said to be persons of importance.

A statement by Gen. Bernardo Reyes issued in Paris yesterday in regard to the revolutionary situation in this country, in which he affirms his loyalty to the administration of President Diaz, and belittles the present uprisings, was widely published in Mexico today. It was wired by the Government to all parts of the republic and orders were given to the authorities of the different districts that the people be made acquainted with the statement. It is the hope of a serious blow to the ardor and the hopes of the revolutionary leaders, who have been diligently circulating the report that Reyes was back of the present movement and was even on his way to Mexico to assume command of the revolutionary forces.

Gen. Reyes's statement inspired that the army will remain loyal to the present administration. It is the belief of high official circles that the stand which the General has taken will cause a quick dissolution of the armed bands that are still roving through some parts of the country. The report is stronger than ever to day that President Diaz will restore Reyes to his former position as Minister of War when he enters upon his new administration on December 1.

Edwards, Consul of France in Puebla, has presented a claim against the Government for \$2,000 damages done by the rebels, a merchant of that city, other claims for damages to the property of foreign residents will be presented.

Francis Pass, Nov. 25. The story of Francisco I. Madero being wounded seems to be untrue. The report that he was wounded by one of his own men, a traitor, and that he was immediately brought back to the American side at a point opposite his estate, some fifty miles below Eagle Pass, was brought here by a civil engineer. Madero is now supposed to be hiding on the American side. Troops under Lieut. Bristol left here this morning to investigate the situation along the boundary. All is quiet here and in Ciudad Juarez. Trains are running regularly.

Black Opals

If beauty were the only gauge of price Black Opals would cost far more than diamonds, rubies or emeralds. No gem ever discovered contains in itself such marvels of vibrating color as do these stones recently discovered in New South Wales. Even the moderate priced specimens costing \$50 or even \$25 have charm beyond that of any crystal gem, while the choice pieces of black opal, costing from \$500 to \$1,000, are so bewilderingly beautiful that a description of the stone's sounds like pure fancy or gross exaggeration.

Marcus & Company extend an invitation to their store, where the stones can be seen in appropriate settings and where it will at once be evident how inadequate are words to describe this new jewel.

B. K. EVERETT A SUICIDE.

Contractor on the New York City Aqueduct kills himself by shooting.

COLUMBIAN, N. Y., Nov. 25. Disappearing after eating his Thanksgiving dinner last evening, Robert K. Everett, of the firm of R. K. Everett & Co., contractors, who are building the Catskill-New York city aqueduct at this place, was found dead on the estate of the late Gen. George P. Morris, adjoining his own residence, this morning with a bullet hole through his temple and a revolver grasped in his right hand. It was a case of suicide.

Mr. Everett had been working late on account of a number of lawsuits against the firm, the result of an explosion last January in which ten men lost their lives while working in a tunnel on the construction work. He was only recently that a jury verdict was given to the widow of one of the men killed and damages awarded to one of the men injured, and other suits are pending. Even with this the other members of the firm, Richard Baldwin, a partner in law of Mr. Everett, and John J. McLaughlin, say they see no reason for the act as they are ahead on their work and the firm is in a good financial condition.

Mr. Everett was the son of the late Commodore William H. Everett, former president of the People's Line of steamers, plying between New York and Albany, and a former member of Assembly from Putnam county, and was also a grandson of Daniel Dwyer, the body said to be buried in the Dwyer cemetery at Carmel, N. Y.

SQUALL IN HONEYMOON FLAT.

Out of Mrs. Buchbinder's Baby Carriage, Which She Thought Was Empty.

A man living on the first floor of the "Honey Moon Flat" at 100 Clinton street, Hoboken, heard the wail of a baby in the hallway just outside her apartment last night and found a three weeks old girl crying in a perambulator.

"That's Mrs. Buchbinder's carriage," she said, "show careless of her to forget her baby."

She ran up stairs to the rooms of Mrs. Albert A. Buchbinder and started that young mother by telling her that she had left her baby in the hall.

"Nonsense," replied Mrs. Buchbinder. "I brought the baby up when I came in. I didn't forget her baby."

Then it is somebody else's baby," said the neighbor as she rushed down stairs. The mother said that the person who abandoned the baby in Mrs. Buchbinder's perambulator didn't have much sense.

For Buchbinder's husband, the police said, had been in the "Honey Moon Flat" and a woman who is anxious to adopt a baby was allowed to take charge of the infant for the night.

KILLED IN BOXING RING.

Billy Dunning Fails to Regain Consciousness After Knockout.

Providence, R. I., Nov. 25. Billy Dunning of Millinocket, a well known Maine heavyweight boxer, died this afternoon without regaining consciousness, following a bout with Jack Levin, the Russian Lion at the Providence Hotel last night.

Dunning was knocked out in the fifth round of what was to have been a six round bout with a hard right swing on the jaw. He lay flat on the floor of the ring with a considerable force and after his seconds had carried him to his corner, he failed to revive.

Physicians were summoned and worked for three hours, but were unable to restore him to consciousness. An autopsy will be performed to-morrow to determine the cause of death.

Stewart, chief doctor of the coroner's office, said that he had been in the ring when Dunning was knocked out and that he saw him die.

Dunning was a native of Maine and had been in the ring for about five years. He was a well known fighter and had won many bouts.

His wife, who was with him at the time of the fight, said that she was very anxious for him to win and that she was very sad to see him die.

The funeral will be held on Monday morning at 10 o'clock at the residence of his parents in Millinocket, Maine.

DEFENDS GERMAN HIGH PRICES.

Plenty of Meat for All and Wages Grow Faster Than Living Cost, Says Delbrueck.

Special Cable Dispatch to THE SUN.
BERLIN, Nov. 25. In the Reichstag Herr Delbrueck, Minister of the Interior, defended again to-day the Government's attitude on the meat question. He said it had been proved that the poor were not underfed. There was enough meat in the country to furnish the necessary average supply per head of the population.

He insisted upon the unwisdom of relying upon foreign countries for a meat supply. He pointed out that the export of cattle meat from the United States, which in 1909 was 10.6 per cent. of the total of American exports, sank in 1909 to 5.9 per cent.

The price of meats, the Minister contended, had risen mainly owing to the improved manner of living. He cited numerous statistics to prove Germany's increased prosperity in ten years, and quoted well known economists to show that between 1900 and 1910 wages in Germany had increased 37.102 per cent., while the cost of living had increased only 22.102 per cent.

For the people, he insisted, had so advanced in the nineteenth century as the Germans or indulged in more luxuries from the highest to the lowest classes.

SPANISH STUDENTS VICTORS.

Compel Madrid Official Responsible for Police Attack to Resign.

Special Cable Dispatch to THE SUN.
MADRID, Nov. 25. The medical students made their threatened demonstration to-day against the police, who had incited their ire by charging them on Wednesday night when they caused a riot at the Teatro Novallas because they did not approve of certain phases of plays presented there. Today the students were headed by the professor of the faculty of medicine.

A delegation visited the office of the superior chief of police, who informed the students that he alone was responsible for the conduct of his subordinates and that he was willing to submit his resignation.

This settlement of the trouble satisfied the students, who after the resignation was drawn up and signed, carried it to the Minister of the Interior for his acceptance of it.

According to information given by Captain Clark of the West Side division of the detective bureau, Welsh is the man who shot Lucie Chabenat as she was going up the steps of 139 West Twenty-eighth street last Monday night. She showed her friend a letter from a notary in Bordeaux, France, saying that an estate had been settled and Lucie Chabenat was a beneficiary. She went out, saying she wanted to find a notary. About 10:30 o'clock she came back. She had reached the top of the steps when a shot was fired and she fell dead.

OPPOSES GUNS ON THE CANAL.

Representative Tawney Wants the Panama Strip Neutralized by All the Powers.

Special Cable Dispatch to THE SUN.
PANAMA, Nov. 25. "If the nations of the world will agree to regard the Panama Canal as neutral territory, then there will be no need for fortifications," said Representative James Tawney, chairman of the Appropriations Committee of the House of Representatives, in an interview published in a local newspaper here today.

Mr. Tawney is now investigating conditions in the Canal Zone. He is opposed to outlaying millions for the fortification of the canal. He wants a convention of world powers, agreeing to regard the Canal Zone as neutral territory, thus eliminating the necessity of planting cannon about the entrances on the Atlantic and Pacific oceans.

Mr. Tawney was asked about the chance of the United States being shut out from the canal in case of war. He replied: "This great enterprise is being built with American money and in time of war there is no nation that would dare say to the United States: You cannot send your ships through the canal built by you at a tremendous cost of money and blood."

"The canal is built for the benefit of commerce. The land is divided in order that the entire world may be united, that markets may be brought into closer communication one with another. The United States is big enough and should be big enough to lend all its energies to making the canal a worldwide commercial artery and support the free world by which an advantage would be secured over an enemy."

Representative Tawney intimates he knows the nations of the world are wondering just how far the United States will go in planting guns in the Canal Zone.

CRIPPEN DENIAL OF GUILT.

Ethel Le Neve Furnishes a Long Letter From Him to a London Newspaper.

Special Cable Dispatch to THE SUN.
LONDON, Nov. 25. A Daily News publishes to-day a three column letter from the late Dr. Hawley Crippen which it says it has received through Ethel Le Neve. In this letter Crippen reaffirms most solemnly that he was wrongfully convicted and expresses the belief that facts are yet to come out which will prove his innocence.

The letter gives a great deal of the evidence as to the identification of the remains found in the cellar of the house on Hilldrop Crescent. It says the conviction was a judicial error created chiefly by the prejudice which had been built up in the public mind by the sensational story of Crippen's flight and capture.

The letter winds up with a warm eulogy of Ethel Le Neve. It says: "She has loved me as few women love men. Her prayer will be that God may protect her and allow her to join me in eternity."
